

Liquid Processing Positions

City Brewing Company, a leading manufacturer in the beverage industry, has immediate openings in our Batching Department.

These positions are responsible for processing malt based beverages using blending equipment.

Duties include, but are not limited to, movement of product using hose connections, operation of pumps and valves, performance of basic laboratory testing and data recording, tank cleaning using a CIP system, general cleaning with use of chemicals and pressure hoses, loading and unloading of tanker trucks and completion of necessary paperwork.

Computer literacy required for data entry and equipment operation. Strong math skills required for measurement conversions and inventory management. Candidates must have the ability to complete training for, and use respiratory equipment (requires employee to be clean-shaven and pass lung capacity evaluation). All positions require the ability to lift and carry a minimum of 50 – 100 lb hoses, require entry into confined spaces, ability to work within temperature swings, and work outside in all weather conditions for loading and unloading of rails and tankers. Previous food processing experience and familiarity with HACCP programs preferred.

Candidates will be required to complete post-offer drug screen and functional capacity exam.

These positions offer competitive wage progression based on time worked. Positions will require application for Teamster membership.

To apply, please submit completed employment application (available on our website) to:
